

Top 5 Recommended Home Maintenance Tips

1. To promote better air quality and life expectancy of your furnace, change your furnace air filter every 3 months.
2. Winterize your hose bibs by detaching all hoses from the faucets and insulate with a hose bib cover.
3. Annually seal the grout on your tile backsplash and tile floors to keep them looking beautiful and prevent moisture intrusion.
4. Annually change the batteries on your ceiling smoke and carbon monoxide detectors.
5. After the autumn leaves have fallen, clean your gutters to prevent water damage.
